FOREWORD

County Government Budget Implementation Review Report (CBIRR) for the Twelve months of the Financial Year (FY) 2024/25 has been prepared in conformity with Article 228 (6) of the Constitution and Section 9 of the Controller of Budget Act, 2016, which require the Controller of Budget (COB) to submit to Parliament a report on the implementation of the budgets of the National and County Governments every three months. The report also fulfils requirements of Section 39 (8) of the Public Finance Management (PFM) Act, 2012, which requires the COB to ensure members of the public access information on budget implementation of the National and County Governments.

This report presents the Bungoma county government's budget performance from July 2024 to June 2025. It is based on an analysis of financial and non-financial performance submissions from the CDAs, and County Assembly to the County Treasury and financial reports generated from the Integrated Financial Management Information System (IFMIS). Some of the information contained in this report includes approved budgets, budget financing, exchequer issues, actual expenditure and budget absorption rates of the County Governments during the reporting period.

Preparation of this report was made possible through the concerted efforts of staff from the CDAs and the Assembly, to whom I am highly grateful for their dedication. I urge all readers to constructively engage the county government on budget implementation matters to promote prudent use of public resources.

KEY HIGHLIGHTS

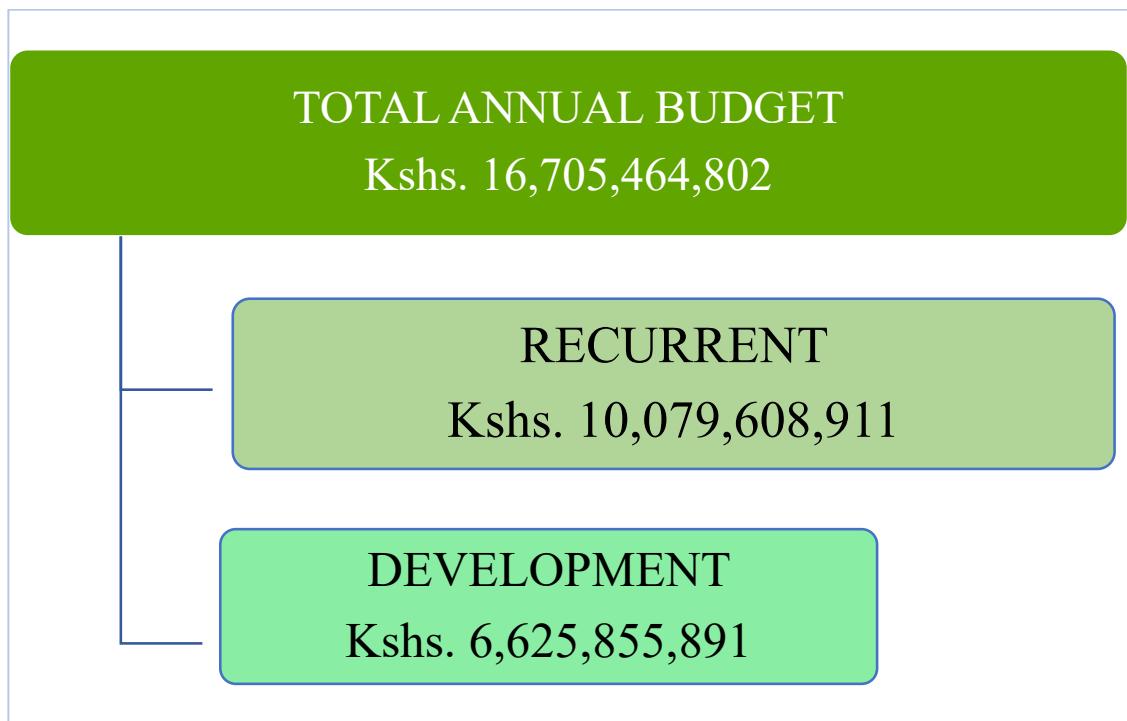

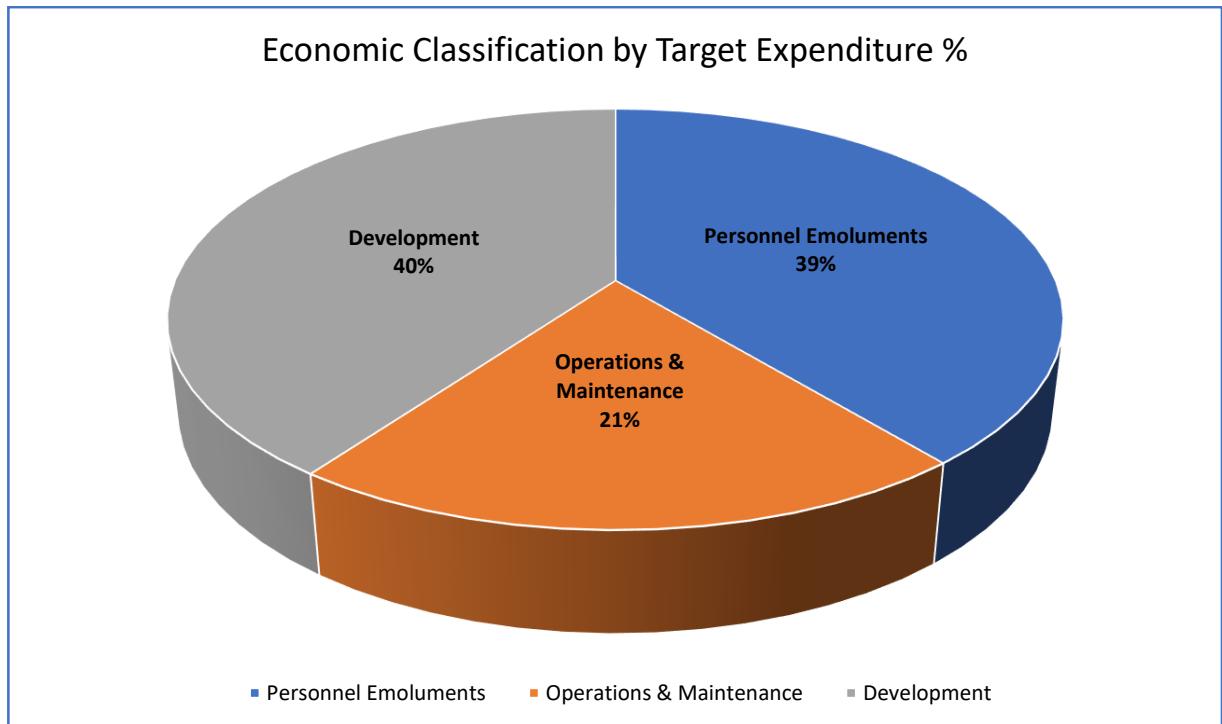

The County Integrated Development Plan (CIDP) for Bungoma County, covering the period 2023 - 2027, has established six key strategic development objectives. These objectives were determined through a participatory process that considered the development priorities outlined in the Governor's Manifesto, the National Government's "Bottom-up agenda," the Sustainable Development Goals (SDGs), and the Medium-Term Plan IV (MTP IV).

Key Development Objectives

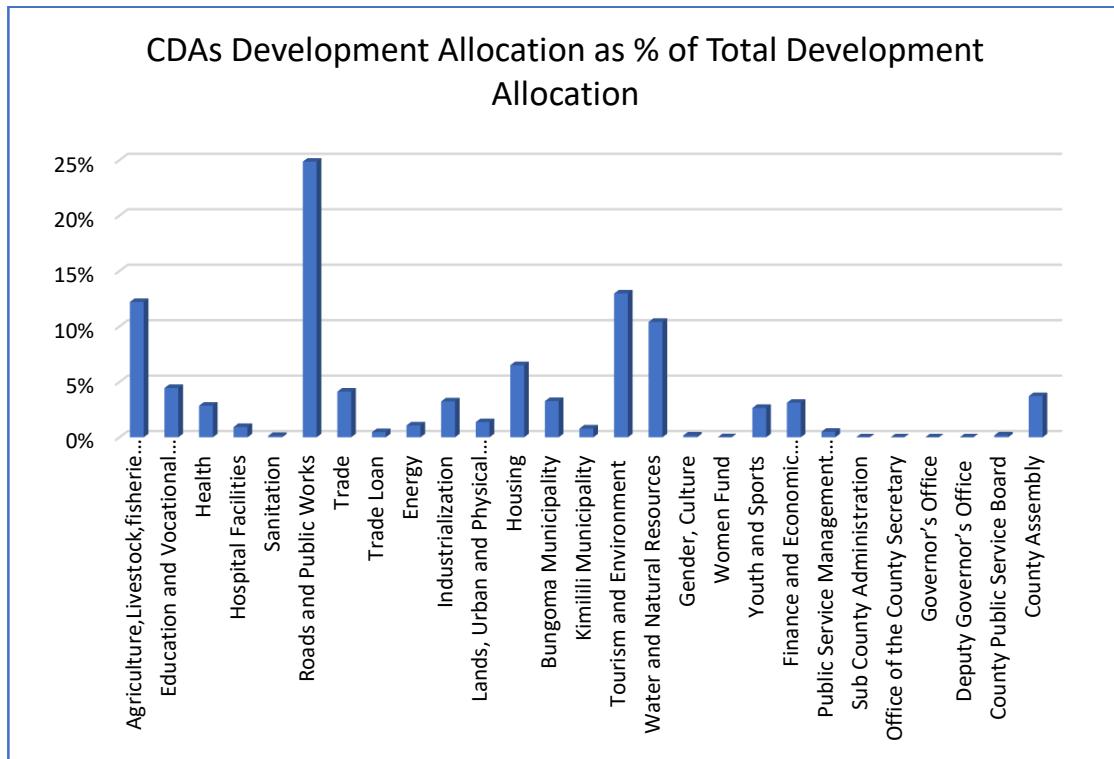

1. Agricultural Production and Productivity: The County aims to increase agricultural production and productivity by enhancing access to critical farm inputs, improving agricultural markets, and promoting value addition across the sector.
2. Transport Network Development: Efforts will be undertaken to develop an adequate, reliable, and efficient multi-modal transport network within the County, facilitating movement and connectivity.
3. Access to Safe Water Supply: The County is focused on increasing access to safe water, particularly in rural areas, to improve public health and quality of life.
4. Education and Training: Achieving equitable access to relevant and quality education and training is a priority, ensuring that all residents are empowered with the skills and knowledge necessary for development.
5. Conservation and Sports Development: There will be an increased focus on conserving natural and cultural heritage, as well as expanding and modernizing sports facilities throughout the County.
6. Health Infrastructure Improvement: The County will renovate and consolidate existing health infrastructure to enhance service delivery. This includes the procurement, distribution, and maintenance of appropriate medical equipment.

Bungoma County is dedicated to full compliance with all statutory requirements and guidelines as stipulated in the Constitution of Kenya, 2010, as well as relevant national and county legislation. The County Government maintains a continuous commitment to good governance, transparency, and accountability in its operations.

The County regularly reviews its processes and procedures to ensure adherence to established legal frameworks. This includes implementing measures that promote openness, responsible management, and the effective use of resources across all departments and programs.

EXECUTIVE SUMMARY:

This report covers the budget implementation for Twelve months of FY 2024/25. The report covers two major sections; the revenue analysis section and the expenditure analysis part. In the revenue, the report details the total revenue collected for the year in the revenue streams and classifications. This part also indicates the current status of revenue collection target for the period. The second part analyses both the recurrent and development expenditure by the County Government entities during the period under review

The County Government's total revised approved budget for 2024/25 FY amounts to Kshs 16,705,464,802. Recurrent allocation of Kshs 10,079,608,911 and Development allocation of Kshs 6,625,855,891 distributed in its CDAs as illustrated below;

I. INTRODUCTION

Legal basis for preparation of quarterly reports

This report is prepared pursuant to the provisions of section 166 (1) and section 166 (4) of the Public Finance Management Act 2012. In accordance with section 166 (1), every accounting officer of a county government entity is required to prepare a quarterly report for each financial quarter pertaining to the activities of the entity.

Furthermore, section 166 (4) stipulates that, not later than one month following the end of each quarter, the County Treasury is responsible for consolidating these quarterly reports. Once consolidated, the reports must be submitted to the county assembly, delivered to the Controller of Budget, the National Treasury, and the Commission on Revenue Allocation. In addition, the County Treasury is mandated to publish and publicize the reports to ensure transparency and accessibility.

In compliance with these legal requirements, the ensuing sections of this report provide a comprehensive financial analysis of Bungoma County's budget implementation for the twelve months of FY 2024/25, encompassing both development and recurrent expenditure. The analysis details how funds were allocated and the sources of revenue supporting county operations. By assessing revenue collection performance and examining the proportion of budgeted amounts realized, this report offers a thorough overview of fiscal management practices. Additionally, it evaluates the composition of funds received—including the equitable share from the national government, conditional grants, and internally generated revenues—thereby laying the groundwork for subsequent discussions on revenue trends and budget execution outcomes.

2. FINANCIAL ANALYSIS OF THE COUNTY BUDGET IMPLEMENTATION FOR TWELVE MONTHS OF FY 2024/25

2.1 Introduction

This chapter presents a financial analysis of aggregated county budget for Twelve months of FY 2024/25.

The analysis covers both development and recurrent expenditures, highlighting the allocation proportions and funding sources for the county's operations. The assessment also considers revenue collection performance over the fiscal year, detailing the extent to which budgeted amounts were realized and examining the composition of funds received, including the equitable share from the national government, conditional grants, and internally generated revenues. This comprehensive approach provides insights into the county's fiscal management and sets the foundation for the subsequent review of revenue trends and budget execution outcomes.

2.2 Overview of the Budget

During the twelve months of FY 2024/25, the Bungoma County government's combined budget, as approved by the County Assembly, was Kshs. 16.7 billion. Of this total, Kshs. 6.62 billion, representing 40 percent, was allocated to development expenditure, while Kshs. 10.07 billion, equivalent to 60 percent, was set aside for recurrent expenditure.

To finance this budget, Bungoma County anticipated receiving Kshs. 12.1 billion, which accounts for 73 percent of the total, as the equitable share of revenue raised nationally. Additionally, the county expected to obtain Kshs. 2.74 billion, or 17 percent, in the form of additional allocations and conditional grants. The county also projected generating Kshs. 1.77 billion, or 10 percent, as gross own source revenue. This own source revenue was further broken down into Kshs. 735 million (4 percent) as ordinary Appropriations-in-Aid (A-I-A), Kshs. 1.04 billion (6 percent) as ordinary own-source revenue, and Kshs. 47.9 million in funds. Details regarding the breakdown of additional allocations and conditional grants are provided in Table 2.1.

By the end of the period on June 30, 2025, the County had projected total revenues amounting to Kshs. 16,705,464,800. After accounting for self-reporting entities, such as the County Assembly, Level 4 and 5 hospitals, and semi-autonomous County Funds, the remaining balance for the County Executive was Kshs. 14,586,224,185. The following section provides a detailed breakdown of the revenues received within the twelve months of FY 2024/25.

Within the reporting period, the County's revenue realization closely reflected the budget projections, with actual receipts categorized across various funding streams. As shown in the subsequent table, the opening balances in nonrefundable special purpose accounts reached Kshs. 327,150,875, achieving a full 100 percent realization. Transfers from the County Revenue Fund (CRF) further contributed to the overall fiscal resources, underscoring the importance of both external and internal financing mechanisms in meeting the county's operational and development goals. This comprehensive review of revenue classifications provides deeper insight into the effectiveness of the county's budget execution and the reliability of each revenue source throughout FY 2024/25.

Table 2.1 Additional allocations and Conditional Grants Received

Revenue Classification	Budget FY 2024/25	12 Months Revenue FY 2024/25	% Realization
Opening Balances (Nonrefundable special purpose accounts)	327,150,875	327,150,875	100%
Transfers from CRF	14,046,073,310	11,284,992,176	80%
Miscellaneous Revenue	213,000,000	251,804,307	118%
Total Revenue	14,586,224,185	11,863,947,358	81%

2.3 Revenue Analysis

In the Twelve months of FY 2024/25, the total funds available for budget implementation amounted to Kshs.15.1 billion. The County received Kshs. 12.1 billion as the equitable share of the revenue raised nationally, Kshs. 1.7 billion as conditional grants from Development partners and national government. During the reporting period, the County collected a total of Kshs.1.45 billion from own source generated revenue, which was 81.3 per cent of the annual target of Kshs. 1.777 billion. The total local revenue collected was Kshs 485.5 million against a target of Kshs. 1.04 billion representing a shortfall of 53 percent while Appropriation in Aid (AiA) collection amounted to Kshs. 960.9 million against a target of Kshs. 735.4 million representing an achievement of 131 per cent.

During the fiscal year 2024/25, the County experienced a negative variance in its own source revenue, amounting to Kshs. 331 million. Within this category, local revenue was particularly affected, showing a negative variance of Kshs. 556.9 million. In contrast, Appropriation in Aid (AiA) collections performed positively, demonstrating a favorable variance of Kshs. 225.4 million.

Funds were allocated across different revenue streams, each linked to specific targets and collections. Table 2.2 below provides a comprehensive summary, featuring the original budget, supplementary estimates, annual targeted revenue, opening balances, actual revenue realized, and the variance for each revenue stream. This detailed breakdown offers a holistic view of the financial resources utilized to support the County's budget implementation for the fiscal year.

Table 2.2: Total Funds available for Budget Implementation

Revenue Source	Actual 2022/23	Budget 2023/24	Actual 2023/24	Revised Estimates FY 2024/25	Actual FY 2024/25	Variance (FY 2024/25)	Annual Growth (%)	Achievement Rate (%)	Percent of Total Revenue

2.4 Funds Released to the County

2.4.1 Funds released from the Consolidated Fund to Bungoma County CRF.

Article 207 of the Constitution of Kenya establishes the County Revenue Fund, into which all monies raised or received by or on behalf of the County Government must be deposited. The responsibility for administering this fund lies with the County Treasury, as stipulated in Section 109 of the Public Finance Management (PFM) Act, 2012. The fund is maintained as the County Exchequer Account at the Central Bank of Kenya.

During the twelve months of the financial year 2024/25, the Controller of Budget (COB) approved the transfer of Kshs. 12.1 billion from the Consolidated Fund to the Bungoma County Revenue Funds (CRFs). This transfer constituted an equitable share of the revenue raised nationally, in accordance with Article 206 (4) of the Constitution. The amount transferred represented 100 percent of the approved equitable share, which was set at Kshs. 11.17 billion in the County Allocation of Revenue Act, 2024 and Kshs. 963.0 million as balance brought forward from FY 2023/24.

2.4.2 Funds Released to the County Operational Accounts

The withdrawal of funds from the County Revenue Fund is authorized by the County Appropriation Act. To access these funds, the County Treasury must seek approval from the Controller of Budget (COB), an independent constitutional office responsible for overseeing the implementation of budgets by both national and county governments. Upon approval, funds are transferred from the County Revenue Fund to the County Operational Account, which refers to the designated bank accounts held by the County Executive and County Assembly for managing their respective approved budgets.

The withdrawal of funds from the County Revenue Fund is authorized by the County Appropriation Act. To access these funds, the County Treasury must seek approval from the Controller of Budget (COB)—an independent constitutional office

responsible for overseeing the implementation of budgets by both national and county governments. Upon approval, funds are transferred from the County Revenue Fund to the County Operational Account, which refers to the designated bank accounts held by the County Executive and County Assembly for managing their respective approved budgets.

Following the approval and withdrawal process, the allocated funds were distributed as follows, with further details provided in Chapter Six. The COB authorized withdrawals totaling Kshs. 12.1 billion from the County Revenue Fund to County Operational Accounts. Of this amount, Kshs. 3.78 billion was earmarked for development expenditure, and Kshs. 8.7 billion for recurrent expenditure. Expenditure on development programs reflected an absorption rate of 57 percent, indicating moderate utilization of allocated funds compared to the target of 80 percent set in previous years. In contrast, recurrent expenditure represented 87 percent of the annual recurrent expenditure budget, suggesting a relatively high level of fund utilization.

3. FINANCIAL ANALYSIS OF COUNTY BUDGET IMPLEMENTATION FOR TWELVE MONTHS FY 2024/25

3.1 Introduction

This chapter presents a financial analysis of aggregated county budget implementation for FY 2024/25. The analysis examines the extent to which budgeted resources were received and utilized, highlights the allocation between development and recurrent expenditures, and evaluates the county's performance in generating its own revenue. The findings consider not only the overall budget but also the actual funds available and expended during the financial year, providing insight into the efficiency of resource absorption and the effectiveness of fiscal management within Bungoma County. The subsequent overview details the approved budget, the composition of funding sources, and the revenue performance

for the twelve-month period, setting the stage for a deeper exploration of financial outcomes and variances in the following sections.

3.1.1 Overview of FY 2024/25 Budget

In Twelve months of FY 2024/25, the combined Bungoma County governments' revised budget approved by the County Assembly amounted to Kshs. 16.7 billion that comprised Kshs. 6.62 billion (40 per cent) allocated to development expenditure and Kshs. 10.07 billion (60 per cent) for recurrent expenditure.

To finance the budget, the County expects to receive Kshs.12.1 billion (73.0 per cent) as the equitable share of revenue raised nationally, Kshs.2.74 billion (17 per cent) as additional allocations/conditional grants and generate Kshs.1.77 billion (10 per cent) as gross own source revenue. The own source revenue includes Kshs.735 million (4 per cent) as ordinary Appropriations-in-Aid (A-I-A), and Kshs.1.04 billion (6 per cent) as ordinary own-source revenue and Kshs. 47.9 million in Funds. A breakdown of the additional allocations/conditional grants is provided in Table 3.1.

The overall availability of funds for budget implementation during FY 2024/25 reflects a blend of national transfers, conditional grants, and locally generated revenue, resulting in a total of Kshs. 15.1 billion accessible for expenditure over the twelve-month period. This financial inflow enabled the County to support both development and recurrent operations, with revenue streams comprising the equitable share, contributions from development partners, conditional grants from the National Government, and own-source revenue—including ordinary A-I-A and ordinary OSR. Table 3.1 presents a detailed breakdown of these revenue categories, opening balances, and actual receipts, offering a comprehensive view of Bungoma County's fiscal capacity and resource mobilization efforts throughout the year.

3.1.2 Revenue Performance

In the Twelve months of FY 2024/25, the County received Kshs. 12.1 billion as equitable share, Kshs. 1.09 billion from development partners, Conditional National

Government Grant kshs. 399.2 million and raised Kshs. 1.45 billion as own-source revenue (OSR). The raised OSR includes Kshs. 960.9 million as ordinary A-I-A and Kshs. 485 million as ordinary OSR. The total funds available for budget implementation during the period amounted to Kshs. 15.1 billion, as shown in Table 3.1.

Table 3.1: Revenue Performance for Twelve months of FY 2024/25

Although several revenue streams demonstrated commendable performance, achieving above 50 per cent of their annual targets, there remain notable disparities in overall revenue growth. The subsequent analysis will further explore the fluctuations in own-source revenue across the financial years, highlighting both areas of consistent improvement and segments that require strategic intervention to bolster future collections. Figure 1 and Table 8 provide a comprehensive overview of these trends, offering valuable insights into the evolving landscape of local revenue generation and the County's progress towards meeting its fiscal objectives.

Own source Revenue Growth

The figure below shows the Trend in own-source revenue collection from FY 2019/20 to FY 2024/25 and table 2.2 analyses the growth of own source revenue for six Financial Years. This period reflects a dynamic revenue environment, with fluctuations attributable to both external economic factors and internal administrative reforms. The analysis in table 2.2 builds on these trends, providing a detailed evaluation of the growth rates and collection patterns that have shaped the County's fiscal trajectory. By examining the data across six consecutive financial years, the report identifies key drivers behind revenue surges and shortfalls, thereby equipping stakeholders with the information necessary for targeted interventions and policy refinement. Such insights are especially pertinent as the County seeks to enhance its financial sustainability and optimize resource mobilization in the coming years.

Source: County Treasury

During the twelve-month period of Financial Year 2024/25, the County achieved a total revenue generation of Kshs. 1.44 billion from multiple sources, encompassing both local collections and ordinary Appropriations-In-Aid (AIA). This amount marks a notable increase of 41.2 percent over the Kshs. 1,024.5 billion collected in the corresponding period of FY 2023/24. Despite this commendable growth, the revenue collected represented 81.3 percent of the County's annual target. Additionally, these collections constituted 9.6 percent of the equitable revenue share disbursed to the County during the same period.

Other Sources	105,277,301	7%
Total Revenue Collected	1,446,353,690	100%

The revenue streams which contributed the highest OSR receipts are shown in Figure 2.

Figure 2: Top Streams of Own Source Revenue in the 4th Quarter of FY 2024/25

Source: County Treasury

The highest revenue stream of Kshs.960.8 million was from Health /Hospital - FIF, contributing to 66 per cent of the total OSR receipts.

3.1.3 Exchequer Issues

The Controller of Budget approved withdrawals of Kshs. 14.1 billion from the CRF account during the reporting period which comprised Kshs.8.7 billion (61.7 per cent) for recurrent programmes and Kshs 3.7 billion (26.2 per cent) for development programmes and 251 million for special purpose Accounts and grant of ksh 1.49 million. Analysis of the recurrent exchequers released in the Fourth quarter of FY 2024/25 indicates that Kshs. 12.1 billion was released as equitable share, Ksh 6.67 billion on recurrent and ksh 3.79 billion on development.

3.1.4 Facility Improvement Financing

During the period under review, the County reported a collection of Kshs. 960.8 million as FIF, which was 131 per cent of the annual target of Kshs.735.4 million. The collected amount was retained and utilised at source in line with the Facility Improvement Financing Act, 2023

This strong performance in Facility Improvement Financing (FIF) highlights the effectiveness of ongoing automation efforts and underscores the County's commitment to strengthening internal revenue generation mechanisms. Moving forward, sustained improvements in revenue collection and prudent management of funds will be essential, particularly as the County seeks to balance the need for timely salary payments—supported by the short-term facility from Kenya Commercial Bank—with the overall fiscal discipline required to meet both recurrent and development expenditure targets.

3.1.5 Borrowing by the County

To ensure timely salary payments and prevent any delays, the County has established a short-term financing arrangement with the Kenya Commercial Bank, Bungoma Branch. This facility is specifically designed to bridge funding gaps that may arise and to maintain the regular payment of salaries to county staff. As of March 31, 2025, the outstanding balance on this short-term facility amounted to Kshs. 940,844,751 million. This borrowing mechanism has played a crucial role in sustaining the county's payroll commitments during periods of cash flow constraints.

Looking ahead, the County will focus on reinforcing fiscal sustainability by enhancing its internal revenue mobilization strategies and streamlining expenditure management. Efforts will be directed toward optimizing the utilization of both recurrent and development funds, while also strengthening oversight mechanisms to ensure transparency and accountability in resource allocation. By prioritizing timely disbursement of funds and efficient project implementation, the County aims to mitigate the impact of funding delays and revenue shortfalls, thereby supporting the achievement of its budgetary and service delivery objectives in the upcoming fiscal periods.

3.1.6 County Expenditure Review

Overall Performance of Expenditures

The total budget for the FY 2024/25 was Kshs 16.7 billion comprising of Kshs. 6.662 billion Development (40%) and Kshs 10.0 billion recurrent (60%) expenditure. The total actual expenditure in the FY 2024/25 was Kshs.12.56 billion against a target of Kshs. 16.7 billion, representing an under spending of Kshs. 4.13 billion (24.7% deviation from the revised budget)

Several factors contributed to this under-spending. Primarily, there were delays in the disbursement of the equitable share from the national government. Additionally, the county experienced low ordinary revenue collection, which further constrained available funds. Furthermore, the absorption of development projects funded by grants from development partners was low, mainly due to late disbursement of these funds to the County by various donors.

Despite these challenges, the County made concerted efforts to prioritise essential services and maintain fiscal discipline throughout the period. Expenditure patterns reflected a stronger focus on meeting recurrent obligations, while development outlays lagged behind targets due to the aforementioned delays and funding constraints. As a result, the utilisation rates for both categories of expenditure varied, with recurrent spending nearing the annual allocation and development spending remaining below expectations. This performance underscores the ongoing need for improved revenue mobilisation, more timely disbursement of funds, and enhanced project implementation strategies to ensure that budgetary objectives are fully achieved.

Source: County Treasury

The analysis of departmental expenditure for the twelve months of FY 2024/25 reveals significant variations in spending across ministries and departments. The Health and Sanitation department recorded the highest expenditure in absolute terms, with a total of Kshs. 3.16 billion. This was followed by Education and Vocational Training, which spent Kshs. 1.43 billion, and the Roads department, which expended Kshs. 1.23 billion. Finance and Economic Planning closely followed with an expenditure of Kshs. 1.18 billion, while the County Assembly recorded Kshs. 1.20 billion in spending. In contrast, Kimilili Municipality and the Office of the County Secretary registered the lowest expenditure among the departments, with Kshs. 30.1 million and Kshs. 42.0 million, respectively.

A review of cumulative expenditure across economic classifications during the period shows that Kshs. 6.42 billion was allocated to Personnel Emoluments. Operations and Maintenance accounted for Kshs. 2.35 billion, and Development activities received Kshs. 3.78 billion. This breakdown offers a clear picture of how resources were distributed among the main expenditure categories, highlighting the county's priorities in personnel, operational needs, and development initiatives.

5 Source: County Treasury

Analysis of development expenditure as a proportion of approved budget shows that a number of departments had an absorption rate of above 50% expenditure on development during the review period apart from Trade 47%, Education 45%, Finance 44%, and Health at 41%; Water and Kimilili Municipality which recorded the lowest expenditure percentages of 23% and 7% respectively.

3.1.7 Expenditure by Economic Classification

Analysis of expenditure by economic classification indicates that the County Executive spent Kshs. 6.08 billion on employee compensation, Kshs.1.5 billion on operations and maintenance, and Kshs.4.5 billion on development activities. Similarly, the County Assembly spent Kshs.507 million on employee compensation, Kshs. 571 million on operations and maintenance, and 127 million on development activities, as shown in Table 3.2.

Table 3.2: Summary of Budget and Expenditure by Economic Classification

3.1.8 Recurrent Expenditure

During the reporting period, the County spent a total of Kshs.8.78 billion on recurrent activities. This amount accounts for 87 percent of the overall expenditure, signifying a substantial allocation toward recurrent operations within the county government. When compared to the county government's Annual Budget, this expenditure represents 53 percent, highlighting the prominence of recurrent spending in fiscal management.

The recurrent expenditure is divided into two main categories: Personnel Emoluments and Operations and Maintenance (O&M). Of the total recurrent expenditure, Kshs.6.5 billion was allocated to Personnel Emoluments, which includes salaries, wages, and other employee-related costs. Additionally, Kshs.2.08 billion was spent on Operations and Maintenance, covering the costs necessary for sustaining day-to-day activities and the upkeep of county facilities.

These expenditures on Personnel Emoluments and Operations and Maintenance reflect the county's commitment to sustaining essential public services and administrative functions throughout the financial year. The prioritization of recurrent activities is further demonstrated by their significant share within the total budget, underscoring the county's focus on maintaining workforce stability and ensuring the smooth operation of government services. As the analysis shifts toward setting allowances for Members of the County Assembly (MCAs), it is evident that strategic resource allocation remains central to the county's fiscal planning and governance, with careful monitoring of budget absorption rates across various expenditure categories.

3.1.9 Expenditure on Employees' Compensation

In the FY 2024/25, expenditure on employee compensation was Kshs.6.59 billion, or 99 per cent of annual wage bill target. This expenditure represented an increase from Kshs.5.31 billion reported in a similar period in FY 2023/24. The wage bill included

Kshs. 2.725 billion paid to health sector employees, translating to 44.7 per cent of the total wage bill.

The County Assembly spent Kshs.48.3 million on committee sitting allowances for the 63 MCAs and the Speaker against the annual budget allocation of Kshs.56.3 million. The average monthly sitting allowance was Kshs.63,919 per MCA. The County Assembly has established 24 Committees.

This expenditure pattern in compensation and allowances underscores the county's commitment to fulfilling statutory obligations for personnel costs while also ensuring the effective functioning of legislative operations. As the analysis transitions to development expenditure, it becomes evident that, despite meeting recurrent obligations, the county must balance these with strategic investments in development initiatives. The subsequent section provides an in-depth review of how resources were allocated and spent on development projects across ministries and departments throughout FY 2024/25, offering insight into both the fiscal discipline exercised and the challenges encountered in achieving optimal budget absorption and implementation outcomes.

3.1.10 Development Expenditure

This expenditure highlights the county's prioritization of development initiatives within the overall budget framework. Table 2.3 details the allocation, actual expenditure, and absorption rates for each ministry and department for the twelve months of FY 2024/25, providing a comprehensive overview of how resources were distributed and utilized across both recurrent and development categories. The data offers valuable insight into fiscal discipline and the effectiveness of budget implementation at the departmental level.

The total development Expenditure in FY 2024/25 amounted to Kshs 3.78 billion against a budget of 16.7 billion representing 23 percent of the total budget and 57 percent of the development allocation for the same period.

According to Section 107(b) of the Public Finance Management Act, 2012, county governments are required to allocate at least 30 percent of their budgets to development expenditure over the medium term. While the county government complied with this requirement in the approved budget, allocating the mandated 30 percent to development, the actual spending fell short of the target. Actual development expenditure represented only 23 percent of the total budget, indicating that spending was below the intended threshold despite the budgetary provision.

This variance highlights a gap between budgeted allocations and actual disbursements towards development, underscoring the need for enhanced efficiency and effectiveness in budget execution to ensure that development objectives are met in accordance with statutory guidelines. FY 2024/25, the County incurred Kshs. 3.78 billion on development programmes, representing an increase of 21.6 per cent compared to a similar period of FY 2023/24 when the County spent Kshs. 3.115 billion. The table below summarises development projects with the highest expenditure in the reporting period.

3.1.11 Review of MCA Sitting Allowances

The County Assembly spent Kshs.48.3 million on MCA's sitting allowances against an approved budget allocation of Kshs.56 million during the reporting period. This expenditure translated to 86 per cent of the approved MCAs sitting allowance budget, reduced by 12 per cent attained in the fourth quarter of FY 2023/24 when Kshs. 60.4 million was spent against an allocation of Kshs. 61.2 million. Table 2.4 shows the budgetary allocation and expenditure on MCAs and Speakers' sitting allowances in FY 2024/25

Table 2.4: MCAs Budget Allocation, Expenditure and Absorption Rate in twelve months of FY 2024/25

County	Budget (Kshs.)	Expenditure (Kshs.)	Absorption (%)	No. of MCA's	Average monthly sitting allowance per MCA (Kshs.)
					A

3.1.12 Pending Bills as of 31st June 2025

A pending bill refers to a financial obligation that remains unsettled at the close of a financial year. This situation typically arises when an entity does not pay for goods and services that have been properly procured, delivered, or rendered by the end of the financial year.

Section 94 (1) (a) of the Public Finance Management (PFM) Act, 2012, stipulates that the failure of a State organ or a public entity to make timely payments may serve as an indicator of a serious material breach or a persistent material breach of the measures established under the Act. In addition, Article 225 of the Constitution, in conjunction with Section 96 of the PFM Act, empowers the County Executive Committee Member (CECM) for Finance to halt the transfer of funds to Departments and Agencies that are found to be in breach.

There are material arrears in statutory and other financial obligations, highlighting concerns over financial management and compliance. These arrears include unremitted statutory deductions such as PAYE, NHIF, NSSF, and pension contributions, as well as pending bills owed to suppliers and service providers. As of the end of 2024/25 financial year, the county had pending bills 4 billion. . Of this

amount, Kshs.2.9 billion is attributed to recurrent expenditure, while Kshs.2.0 billion consists of development-related pending bills.

The accumulation of such obligations—especially statutory deductions—poses significant legal and operational risks, potentially attracting penalties and affecting service delivery within the county. However, the Bungoma Executive has an action plan of clearing the pending bills.

County Executive			County Assembly				
Recurrent (Kshs.)	Development (Kshs.)	Sub Total (Kshs.)	Recurrent (Kshs.)	Development (Kshs.)	Sub Total (Kshs.)	Grand Total (Kshs.)	
2,910,711,821	2,062,462,087	4,973,173,908	16,282,957	0	16,282,957	4,989,456,865	

To ensure that pending bills do not accumulate, several mechanisms have been put in place by the County Executive Committee Member (CECM) for Finance as recommended by the committee:

- Departments should have proper internal control measures to ensure that proper procedures are followed in contracting for goods and services to avoid claims that lack supporting documentation.
- Timely procurement requisitions to avoid the last-minute rush at the closure of the financial year. Therefore, work plans should be prepared in such a way that most works, goods, and services are procured in the first two quarters of the financial year.
- Departments to make a follow up on works, goods and services procured to ensure the same are completed and delivered within the stipulated contract timeframe to avoid payments spilling in the subsequent financial years.
- Clarity on what qualifies to be a pending bill to avoid overstating the overall county pending bills which hinders proper planning and execution of planned projects for the subsequent years.

- The county treasury to sensitize the implementers on what pending bills are and their implications. The national treasury uses a 90-day in unpaid bills as the basis of definition of a pending bill.

3.1.13 County Emergency Fund and County-Established Funds

Section 110 of the Public Finance Management (PFM) Act, 2012, provides for the establishment of an Emergency Fund. This fund is intended to enable counties to respond promptly to emergencies as they arise. Additionally, Section 116 of the same Act empowers County governments to create other public funds, provided they secure approval from both the County Executive Committee and the County Assembly. These legal provisions ensure that counties have the necessary mechanisms to manage finances for both urgent and planned purposes.

For the financial year 2024/25, the County has allocated Kshs.395 million to various county-established funds. This allocation represents 2.5 percent of the County's overall budget. The following section, Table 3.3, presents a summary of the budget allocations to each established fund as well as their respective performance during the reporting period.

Table 3.3: Performance of County Established Funds in the Twelvemonths for FY 2024/25

S/No.	Name of the Fund	Approved Budget Allocation in FY 2024/25 (Kshs.)	Exchequer Issues (Kshs.)	Actual Expenditure (Kshs.)	Submission of Financial Statements as of 30 th June 2025 (Yes/No.)

3.1.12 Key Observations and Recommendations

The following are challenges which hampered effective budget implementation.

- Own-source revenue underperformed at Kshs.1.278 billion against an annual target of Kshs.1.77 billion, representing 72 per cent of the yearly target.
- Low absorption of development funds which was at Kshs. 3.78 billion thus 57% of the target development allocation.
- High level of pending bills, which amounted to Kshs.4.9 billion as of 30th June 2025.

The County should implement the following recommendations to improve budget execution:

1. The County should develop and implement strategies to enhance its own-source revenue performance to ensure the approved budget is fully financed.
2. The County leadership should address the pending bills situation to ensure genuine bills are paid promptly in the respective financial year.
3. The County should identify and address issues causing delays in implementing development programmes and projects.

ANNEXES: Project Performance Report for FY 2024/2025

Agriculture, Livestock, Fisheries, Irrigation and Cooperatives

S/No.	Project Name	Location	Allocated	Contract Sum	Expenditure	Status	Remarks
1.	Supply and delivery of certified maize seeds varieties for highland areas	Across all 45 Wards	56,000,000	67,500,000	67,500,000	100% complete	Procured and distributed to farmers
2.	Supply and delivery of fertilizer	Across all 45 Wards	270,000,000	112,500,000	112,500,000	100% complete	Procured and distributed to farmers
3.	Construction of Machinery Shed for AMC - Mabanga	Mabanga	3287500	3,256,400	-	100% complete	Construction works complete
